DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 26-33: draw to a capacitor construction comprising a first capacitor electrode over a substrate and a capacitor dielectric layer over the electrode that is classified in **class 257, subclass 301**.

Group II. Claims 1-25: draw to a method of making a capacitor that is classified in **class 438, subclass 393**.

2. Inventions in Group I and II above are related as device and method, the product made and the process of making product, for its practice. The inventions are distinct if it can be shown that either:

b) the product (I) as claimed can be made by another and materially different process.
(MPEP 806.05(e)), or

a) the process (II) as claimed can be practiced by another materially different product or by hand.

For instance, unpatentability of the group I invention would not necessarily imply unpatentability of the group II invention, since the device of the group I invention could be made by other processes materially different from those of the group II invention.

Art Unit: 2818

3. Because the inventions are distinct from the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of the inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. A shortened statutory period for response to this action is set to expired 1 (one) months and 0 (zero) day from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see 710.02 (b)).

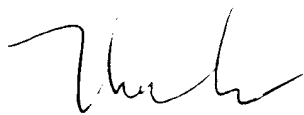

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thao P Le whose telephone number is 703-605-1187. The examiner can normally be reached on M-F (8:30-5:30).
